

Gabriele Losi

Researcher, Istituto di Neuroscienze
Consiglio Nazionale delle Ricerche
Dip.to di Scienze Biomediche dell'Università degli Studi di Padova

- 1999: Master degree in Pharmaceutical Chemistry and Technology, Faculty of Pharmacy, University of Modena and Reggio Emilia (Italy). Rating: 110/110 cum laude.
- 1999: Postgraduate Annual Course in Laboratory Techniques for Drug Research, Department of Pharmaceutical Sciences, University of Modena and Reggio Emilia.
- 2000-2003: PhD student (XV cycle, 4 years program) in Biologically Active Natural Substances with anxiolytic and antidepressant actions, University of Modena and Reggio Emilia.
- 2000-2002 and summer 2004. Research Fellow at the Department of Physiology and Biophysics at Georgetown University, Washington DC (USA).
- 2003-2008. Research and Teaching assistant in Pharmacology and Toxicology, Faculty of Pharmacy (2003-2005) and Faculty of Biotechnology and Biosciences (2005-2008), Department of Biomedical Sciences, University of Modena and Reggio Emilia.
- 2008-2012. Research assistant at the Neuroscience Institute, National Research Council (CNR) and Department of Biomedical Sciences, University of Padova (Italy).
- 2012-today. Researcher at the Neuroscience Institute, National Research Council (CNR) and Department of Biomedical Sciences, University of Padova.
- Author of 24 peer reviewed articles in international scientific journals.

Main current research topics: Astrocytes-neurons dynamic interactions in brain physiology and pathology; cellular and molecular mechanisms of epileptic activities in brain networks.
