

**Stefano Panzeri**

Stefano Panzeri is a computational neuroscientist currently working as Research Professor at the Italian Institute of Technology in Rovereto, Italy. He did his PhD at SISSA (Trieste) under the supervision of Alessandro Treves. He then worked as Postdoc at the University of Oxford, as an MRC Research Fellow at the University of Newcastle, as a Reader at University of Manchester, and as Professor at the University of Glasgow. His research focuses on how network of neurons in the cerebral cortex encode and transmit sensory information.
